TASTING SELECTION

MÉTHODE CAP CLASSIQUE

South Africa's answer to traditional method Champagne has seen a sharp rise in popularity from all corners of the earth. Traditional varietals of Chardonnay, Pinot Noir and Pinot Meunier are most often used, however certain producers are making excellent bubbly using other varietals such as Chenin Blanc, Sauvignon Blanc, Pinotage and various different blends. In order to be labelled as a Cap Classique, the wine needs to undergo a secondary bottle fermentation and spend a minimum time of 9 months on the lees.

AWARD-WINNING WHITES

South African white wines have long been hugely popular both locally and internationally. Their crisp freshness and diverse range of flavours have seen a supply in a range of styles that vary between being light and fruity to showing great minerality and sublime richness. These white wines are excellent when served alongside food or by themselves and represent a widespread terroir across the Cape winelands.

AWARD-WINNING REDS

Rich and robust or elegant and light, this selection of award-winning South African red wines offers a cacophony of flavours that are bound to excite even the harshest of critics. The diverse offering in these red wines truly showcase the best of the best, albeit only a small representation thereof. South African reds have come a long way and provide complexity in flavour in a wide selection of styles that ensures a uniqueness in style that is truly our own.
